PLANO max

Planomax
## In-store planogram Compliance

Just scan the QR code to view your planograms on your phone or tablet.

No need to wait for paper printouts or emails.

- Increase efficiency and save time with planogram audits.
- Boost your in-store compliance and receive direct feedback.
- Secure and easy to use. Designed for merchandisers and staff.
- View the planogram on your phone and compare it with the fixture.
- Take pictures directly through the app and include a message.
- Eliminate the need for printing or emails. Reduce costs and save on paper.

Scan the QR code to view the planogram in the solution

PLANO max
STEP BY STEP

EDIT
Client edits planograms, saves them in PDF and uploads to Planomax

SELECT
Client selects the updated planograms on the platform, sets the implementation deadline and sends an email through the system to the stores whose planograms have been updated.

RECEIVE IN YOUR E-MAIL
The store receives the e-mail with the list of the updated planograms and the date for its execution.

UPDATE
After executing the planogram, the store enters the platform and reports that the planograms have been executed.

DELIVERY
If, after the date set for execution, the store does not inform the execution of the planogram, the manager responsible for the store and the store manager receive an email informing about pending planograms.

FOLLOW UP
Client has access to a dashboard with information on how many planograms have been updated, how many have been sent to stores, how many have been executed and how many are late for follow-up.
